

SHIELD SYSTEMS, INC.

Moisture Protection Specialties

Project Name: World Trade Center
Owner: World Trade Center
Address: 1625 Broadway #1500
Denver, CO 80202
Phone: 303-595-7025
Installation: 2003
Materials: Strongcote SC112/113
Heavy Duty Traffic Membrane
Preparation: Shot Blast/Powerwash
Application: Squeegee/Broom

An interior garage originally called for a urethane deck coating system. Because the garage was located in the base of the building under occupied space, the need for a odor free solvent free system was desired. Furthermore, the time schedule required turn over in one weekend. Strongcote SC 112/113 provided a solution by being water based and odor free. This 33,000 square foot installation was done in two weekends, and allowed for minimal interruption to the operation of the garage.
