Moisture Protection Specialties

**Project Name:** Cherry Creek, Colorado  
**Owner:** Cherry Creek Parking Garage  
**Phone:** 303-341-6989  
**Installation:** 2006  
**Materials:** Strongcote SC112/113  
Heavy Duty Traffic Membrane  
**Preparation:** Shot Blast  
**Application:** Squeegee/Broom Finish

An exterior garage that had previously had a traffic membrane installed. The old coating was removed and the bad concrete was removed and replaced with structural repair mortar. Upon shot blasting the Strongcote SC-113 was applied over the entire deck. The SC-113 provided a heavy build up and helped to mask over the many imperfections of the deck. Again the fast cure, even in the low humidity environment, allowed for a quick turn around of the structure. Total area 7,800 square feet.
