Address: 111 South 10th Street
St. Louis, MO 63102
Phone: 314-244-7900
Installation: 2006
Materials: Strongcote SC112/113
Traffic Membrane
Preparation: Shot Blast
Application: Squeegee/Back Roll

Parking Deck After Strongcote Installation

Parking Deck After Strongcote Installation

This interior garage had experienced cracking and spall damage and was in need of a protective coating. After evaluating various types of membrane coatings, Strongcote was selected as the best suited system due to several reasons. Namely, the interior garage could not tolerate any solvents or odors and Strongcote's Zero VOC odorless characteristic was a key factor. Also, the fast cure rate of the coating allowed for the entire system to be installed over a weekend allowing for traffic at the start of the following work week. Total area 90,000 square feet.
